

**Location** – Edmonton or Calgary, Alberta (other locations may be considered)

**Employment Type** - Full-Time

### **Position Overview**

SWAT Consulting Inc. is seeking an outgoing, energetic individual to fill a full-time role for a **Reclamation Supervisor / Intermediate Environmental Scientist** to support our growing remediation and reclamation project team. This position can be based out of either Edmonton or Calgary, Alberta, with remote work opportunities available (specifically Grande Prairie, Brooks/Drumheller, and/or Kindersley). If you are looking for a rewarding career with opportunity for continuous learning and environmental stewardship, this is a great opportunity to join our team!

We are looking for an exceptional individual who will be responsible for supervising the execution of assessment, remediation and reclamation projects throughout Western Canada, but primarily within Central Alberta. The appropriate candidate will bring strong technical and field experience; the position is approximately 80% field based with focus on planned project work for site closure and liability management programs. Experience with remedial excavations, wellsite reclamation and completing detailed site assessments (DSAs) is a requirement. Experience with Phase 1 and 2 ESAs, groundwater monitoring and remediation, and non-routine site closure activities would be an asset. SWAT will provide a mentorship program to ensure you are given the correct knowledge and skill set to thrive in your career and represent our high quality standards. The role requires the candidate to be available to travel and for work on weekends on an as needed basis for efficient program execution. If you are looking for a rewarding and exciting career, this is a great opportunity to join our team!

SWAT Consulting Inc. is a multi-disciplinary environmental consulting firm with offices located throughout Western Canada. SWAT specializes in comprehensive emergency management and environmental management services with a growing workload of liability management and reduction focused remediation and reclamation projects. SWAT is a community of driven professionals that are passionate about our discipline and offer a team focused working environment. As a small and growing company, there are no limits to your career potential where our evolving culture supports you as a professional, while promoting and encouraging constant career advancement into areas of interest and ability. We believe our most valuable resource is our people and we offer our employees a comprehensive compensation and benefits package, which includes extended health care (dental, vision, health), a health and wellness program, disability insurance, RRSP matching, and a highly competitive salary.

### **Qualifications**

The ideal applicant will have:

- Experience supervising wellsite remediation and reclamation and completing detailed site assessments (DSAs). Experience with Phase 1 ESAs, Phase 2 ESAs, groundwater monitoring and remediation, and vegetation management would be an asset. Minimum 3+ years' experience.
- Problem-solving skills in the field as a site supervisor, including management of multiple contractors, scopes and site locations at any given time.
- Understanding of upstream oil and gas regulatory requirements including Alberta Tier 1 and 2 Guidelines, CCME Guidelines and AER Directives 50 and 58.
- Excellent teamwork skills to work positively and collaboratively with a diverse team. As well as the ability to work independently with minimal supervision.
- Excellent interpersonal skills for building and maintaining positive working relationships and partnerships with diverse stakeholders.
- Comfort working in a fast-paced environment with a safety mindset, critical thinking and strong attention to detail, and a focus on efficient task execution.
- A Degree or Technical Diploma in an environmental discipline.
- Must be eligible to be a member of a professional association (P.Chem, P.Eng., P. Geo., P.Ag, R.TAg, P.Biol, P.Tech. (Eng.), etc.).
- Must possess a valid Class 5 (non-GDL) driver's licence.
